ARC Review Minutes:

Reviewed Project proposed at: 3600 Fawn Trail. This project is for a screen porch under a raised deck. At the present time in the middle of the rear elevation there is a ground level deck with raised decks on the right and left sides. This project will raise the ground level deck and connect it to the existing raised decks. Under the raised decks a screen room with fireplace will be created.

When feasible decking materials will be reused on the deck being raised. New materials for the raised deck and screen room will match current rear elevation materials. Project approved.

Reviewed Project proposed at: 3899 Carlisle Drive. This project is for the addition of a masonry fireplace to the screen room. The new masonry will match masonry in place. Project approved.
